# Debra

A pretty blonde such as Debra doesn't really need to resort to such garish props as lurex stockings and silver high-heeled shoes. But a bit of lily gilding doesn't really do any harm...

Debra's also to be seen with the lovely Mary Millington in her new film **The Playbirds**, which opens in Central London in July. We look forward to seeing her in action!

Such a pretty bottom, too. Fancy a ride, anyone?  
There's room for one more...

Well don't just stand there, sailor, slip it in!

#### FOCUS ON DEBRA

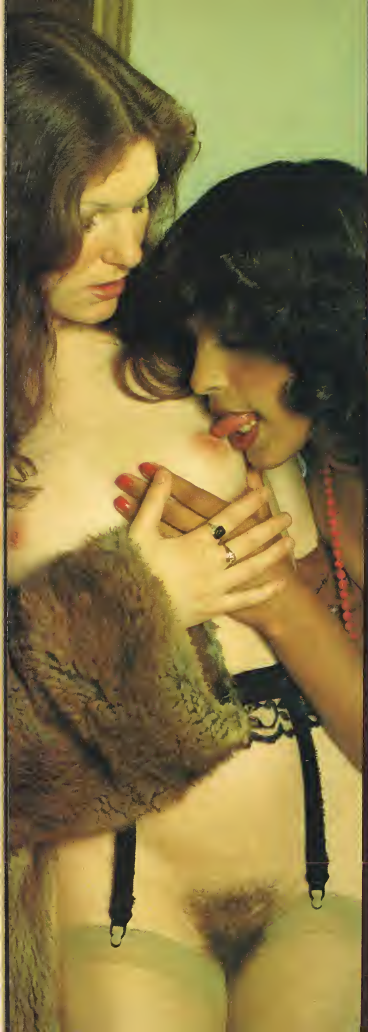

Not only is this lovely young model appearing in our magazine, but also in Britain's top selling monthly magazine PLAYBIRDS. AND (if you can believe it) IN EVEN MORE sexually explicit poses! Playbirds is not only a superb magazine, for the first time a British magazine has gone into film production. So you can see lovely Debra on the Big Screen! Playbirds have always brought you the very best birds, and the very best quality magazine. Now they bring you the best sex film of 1978. IT'S CALLED THE PLAYBIRDS, and it's released on 6th July at the Eros Cinema, Piccadilly Circus - continuous programmes from 11.00am to 2.00am (last programme 11.00pm) - 7 days a week. Look out for selected releases in the provinces from Autumn. Often sex films are poorly made with little or no story line, but this is NOT true of THE PLAYBIRDS, the sex thriller which really thrills! The film is as good as any feature film you will have ever seen. AND the sexiest as well, a unique combination of a good quality, fast moving film with a sensational story, but it's the sexiest film of 1978. SO DON'T MISS OUT ON THE PLAYBIRDS.

# JAN AND PAULA

Hi, Jan, come on in. Can I take your coat?

"Does that look nice for you?"  
"Mmmm, nice people to eat!"

Go on, get your tongue right in there.

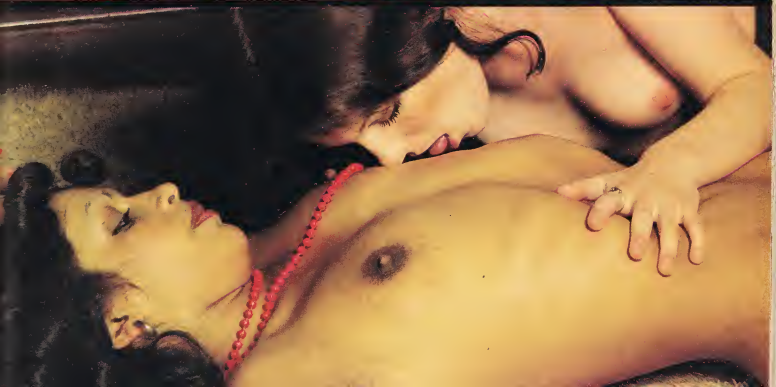

Oooh, that looks fantastic! Now I can get my tongue all the way up you!

# MARY MILLINGTON is back on the modelling scene!

It gives us great pleasure to bring you UP TO DATE pictures of our favourite model Mary Millington. Mary has spent most of her time over the last twelve months writing and promoting her film COME PLAY WITH ME, so that she has not had enough time to devote to modelling. But Mary was photographed here (with Danish Superstad Long Dong Thorsen) on the set of her new film 'THE PLAYBIRDS.' These stills are from the overseas, uncut version of the film. In this film Mary stars with all of Europe's top porno actresses and actors and naturally enough the film is directed by ace Danish Blue film maker Wilhelm Roesteen. Whilst this film has an international cast, it is a British film and all the talking is done in ENGLISH, so don't think it's going to be 'dubbed'. This really is a tremendous film, we might be a little biased as Mary is our favourite model. BUT PLEASE TAKE OUR FIRM GUARANTEE that this film is something very, very special.

It covers every form of sex making, but is MORE than just a sex film. It cost £2,000,000 to make (the most expensive sex film of all time) and it is one of the best sex films of all time. What makes it such a superb film is the storyline, we'll not give away the plot, for fear of spoiling your fun when you see the film, but it is something very out of the ordinary. THE PLAYBIRDS is a sex thriller which really THRILLS!

THE PLAYBIRDS, opens in Central London on July 6th at the Eros Cinema, Piccadilly Circus - showing 7 days a week, continuous performances, from 11.00am-1.00am Late night show every evening. AND look out for showings at selected cinemas throughout the U.K.

He makes a good living from blue film making. He started when he was eighteen!

### PART FOUR

#### RAIN DOESN'T STOP BIG JOHN'S PLAY!

I have often looked at young Paki girls in London and wondered what their brownish bodies look like in the nude. Whether their tits are as good as white girls tits. Their hips as curved, the tummies as flat, the nipples as red and pointed, their bottoms as lush and full and, of course, there is always the burning question there is with a black girl - are the cunts dark-skinned inside and outside or is red and scarlet and pink the universal colour combination for all cunt-holes - English, American, Chinese, Japanese, Mongolian, African, Jamaican - Indian - Paki?

In London I have never approached a Paki girl sexually. First - they are very religious. Very good people. Very high standards of behaviour. Then I have never actually wanted to see a Paki girl naked or wanted to have sex with her. Further, I have always been a little afraid of letting them see my twelve and a half inch prick. After all - a girl - a Paki girl, seeing mine for the first time she's ever seen a stiff dick, might get the impression all white men's dicks are as long as mine.

Arrived in Manchester

**BIG JOHN ENGLISH** concludes his National tour in Whitehouse by a visit to Manchester

as well. I thought London was the Mecca for all immigrants. But, apparently, coloureds and Pakis liked Manchester as well! In spite of the traditional wet weather that always stops play! Depends on what sort of play - what sort of ball-game to which you are referring! It's usually cricket that the rain stops the play off! What bad English. Rain stops play! That's far better. A ball game that no amount of rain will stop - providing, that is, you are not out in it, is pocket billiards.

What, never heard of pocket billiards, ladies? It's played by just one man. Mostly in the cinema during an X film. Or walking along a street behind a girl whose skirt keeps blowing up, showing her knickers. Or lying on the grass in a public park watching the girls go by and their skirts and dresses being wafted up into the air. At least - it used to be so in the days of the mini. Pocket billiards is played with one hand and two balls. To play the game you need a hole in your right-hand side trouser pocket. Next - your right hand in the hole. Next - your right hand joggling your balls. Next - a stiff cock and finally a professional movement on your cue (the prick) until you pocket your balls - or, in other words - come! It's useful to be wearing latex or rubber briefs when you play that game.

Back to Manchester! It was raining when I arrived. As I approached the city I saw the rain clouds hanging over the place whereas all around outside the perimeter of the city there was an unfailing expanse of blue, blue sky. So it's true, after all, I said to myself in my car as I entered the outskirts of Manchester and became enveloped in a beastly drizzle.

I put up at a small and rather dreary looking hotel. The only bright spot about the place was a couple of young, pretty chambermaids. One took me up to my room

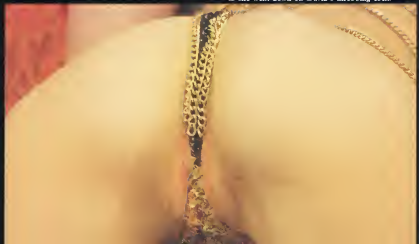

# *Antics of a Sexy Threesome*

"Don't go and make him come!" pleaded Paulette. "I want some, too!"

The crotch of her G-string dug tight between her labia as she went down on David's throbbing cock.

Whilst David tickled Tricia's bottom with the tip of his cock, Paulette sucked voraciously on her clitoris.

With Tricia lying back and playing with herself, David rams his cock hard into Paulette's wet, gaping fanny.

She held her cunt lips wide open so that David could get right into her.

# Do models as beautiful as this really pose for sexy magazines?

Its often said that the very best models DON'T or WON'T pose in the most provocative poses demanded by the leading men's magazines. As a result we are left with featuring some really good looking girls, but NOT the best around.
